

Integrated Cup

New and Improved version

Available now.

A urine collection cup with a built in drug test.

What could be easier?

For most of our customers speedy and hassle free screening is of paramount importance, and the **Integrated Cup** delivers.

- Save time decanting urine
- One piece, one step test
- Multiline Format
- Cup can be sent back to us for confirmation analysis
- Innovative plunger design locks urine in the cup
- Temperature Strip guards against sample adulteration
- **FREE** technical support
- **FREE** Training support

Available in the following combinations:

Improved hinged lid allows you to store the activation key until you are ready to run the test.

New internal gasket gives a high quality seal against the lid, giving you confidence when transporting the sample.

Plunger activates the test, and allows the correct quantity of sample to the test, whilst isolating the remainder for confirmation.

Familiar single drug or multi-line format give easy to read yes/no result.

GINCUP6DS1 (AMP / BZO / COC / MAMP / OPI / THC)
